

Wireless RF Test Enclosures

JRE 0612AC 'Clamshell' Style RF Shielded Test Enclosure

Tall, wide opening enclosure with expanded size I/O plate

- Roomy 11.5 x 4.5 x 10.5 inches inside, 290 x 115 x 265 mm
- Interchangeable I/O plate with other JRE enclosures
- Adjustable latch ensures tight RF shielding
- Rugged welded aluminum construction
- Dual hinges for secure closure

The JRE0612AC with its unique 'clamshell' style construction allows easy entry to the enclosure while still maintaining the excellent RF isolation that JRE test is known for. Using our standard sized I/O plate, there is plenty of room to allow a wide variety of connectors to be utilized. These plates are easily changed and allow one to use the same enclosure for a multitude of different I/O configurations.

Featuring rugged welded aluminum construction, you can be assured of its tight RF shielding effectiveness. Long life door gasket material along with double edge engagement not only provides solid RF shielding, but smooth trouble free operation over its lifespan.

FEATURES & BENEFITS

- Double contact cover shields ensures repeatable measurements
- 3/4" thick RF absorbing foam deadens standing waves
- Heavy duty cover latch assure tight RF isolation
- Rugged welded aluminum construction for long life
- Wide variety of connector options for every use
- Low entry configuration fits well on benchtop

CONNECTORS

Two universal I/O plates with incredible connector options. Easily changed in the field for multiple uses. JRE Test "B" size I/O plate.

ISOLATION

-100dB @ 1GHz, -95dB @ 3GHz, -85dB @ 6GHz

DIMENSIONS

Outside: 13" H x 6" W x 12" D - 330 x 150 x 300 mm

Inside: 11.5" H x 4.5" W x 10.5" D - 290 x 115 x 265 mm

JRE 0612AC I/O Interfaces

Configuring your JRE RF Test Chamber is simple, fast and easy. Choose from ready-to-go, in stock I/O plates with the most common filtered interfaces and connectors and your test chamber can be shipped in just a few days - or have a custom design in about a week, with whatever connectors and filtered interfaces you desire. See all the Fast-Track, in stock I/O plates on our web site.

Want a different set of connectors or filtered interfaces? Contact JRE with your requirements and a custom I/O plate will be designed expressly for your test chamber. This plate will then be populated with the selected interfaces, mounted on the test chamber, final tested and then shipped to you. Other options such as fans, vents, internal AC power strips, fiber optic connectors can all be accommodated. JRE's extensive inventory allows us to ship your custom configured test chamber in as little as one week!
